Action required
From chaos to roll-call in 3 steps.
01
Faculty starts session
Pick subject + division, choose rotation (default 15s). Full-screen QR goes on the projector.
02
Students scan
One tap in the app. GPS + enrollment + token validated on the server. Confetti on success.
03
Reports write themselves
Dashboards, 75% alerts, and semester PDFs with your college logo — generated, not typed.
Priced for Indian institutions.
Start free for 14 days. Scale when you're ready.

actually needs.
Dynamic QR tokens on the backend, live faculty dashboards, bulletproof reports and insights your HOD can trust at 11pm on the last day of the semester.
Dynamic rotating QR
Tokens signed server-side rotate every 10-30s. Screenshots and forwards die at the door.
Live faculty feed
See every check-in the moment it lands. No refreshes, no proxy wars.
Insights that matter
75% threshold alerts, subject-wise trends, streaks, and projection reports.
Anti-proxy by design
Optional GPS radius, device checks and campus-network rules — all server-enforced.
Report-ready
PDF, CSV, Excel with college branding, date range and signature line baked in.
Multi-tenant safe
Every query is organization-scoped. College A never sees College B.
